Hi Sarah,

Do you have any dates in mind? I would be unavailable on the day of the eclipse but would enjoy helping out otherwise. There would be no fee involved. Let me know. Thanks.

> I work for a small private school and we are trying to plan for the eclipse in August. I was wondering and hoping that you would be able to come speak with our students. Our school is Accelerated Schools of Overland Park. We are located in Overland Park, KS. I understand the Eclipse would be an especially busy time for you, but I thought I would try, anyway! Please let me know if you think you'd be able to come out and any associated fees if so.

Hi Rick! Thank you so much for the prompt reply. If you are available on Friday, August 18th around 10:30, that would be perfect. Our school ranges from grades 4-12, so we would like two presentations - one for grades 4-8 and one for grades 9-12; we were thinking approximately 45 minutes or less (but whatever you think works is good!). We will have only started school that Thursday, so we are rushing trying to get them some knowledge of the eclipse! Any information you can provide for them would be just stellar. Please let me know if this works!

Thank you,

Sarah Bean

Great! Thanks so much. Please let me know if we need to have anything set up and ready for you. We have TVs and HDMI cables if you need access to them.

Thank you,

How many students would you expect in each group?

I would say yes on the HDMI cables. Probably put together a presentation for each group.

We are thinking about 25-30 students for each group (total of 50-60).

I'll see if I can come up with that many Eclipse glasses. One pair for each student.

Cool. My suggestion would be you hang on to them until eclipse day to ensure that they are not damaged or misused prior to the actually eclipse.

Rick

I will forward you the presentations once they are built for you to review. I may have a hands on demonstration or two as well. I'll keep you posted. Rick

Hi Rick,

We are looking forward to seeing you on Friday, August 18th at 10:30! We will have a TV and HDMI cable for you to use for your presentation. Please let me know if there is anything else we can get together for you.

Thank you,
